Leadership Development Programs

Princeton HR Insight LLC has invested in building a series of development programs, all of which can be semi-customized, to help our clients create and retain the leaders needed to evolve their businesses.

People Leader Acceleration NETwork™ (PLANET) PLANET is a high-impact, immersion experience for top performing line, operating, and functional leaders co-developed with Ian Ziskin. The program is designed to help managers differentiate themselves as talent magnets who lead, inspire, and develop others in today's rapidly changing workspace. Program learnings are supported by a Hogan leadership assessment, one-on-one coaching sessions, a senior leader panel discussion, and a hands-on case study focused on people leadership & business strategy

Hogan As A Leadership Framework

In partnership with Hogan, Princeton HR Insight created a training to help leaders understand themselves and others along key dimensions tied to culture and motivation, everyday leadership, and tendencies under stress. Participants learn new skills over three sessions by taking a Hogan leadership assessment, learning the framework, working through a case study, hearing real-life examples, and sharing best practices. Finally, they reflect and create a plan to turn insights into action.

C-DEX™ (C-Suite Diversity Excelerator)

Designed in partnership with Lisa Brooks Greaux, Lacey Leone McLaughlin, and Ian Ziskin, C-DEX is designed to accelerate the readiness of high potential women and people of color to thrive in C-Suite leadership team positions several years faster than traditional solutions. Program components include articulation of a personal leadership profile, key constituent interviews, a Hogan leadership assessment, a feedback and recommendations report, an action plan for accelerated development, SWOT risk analysis, personal board of advisors, one-on-one coaching, successor readiness close-out meeting, etc.

WOMEN Unlimited

We are proud to support WOMEN Unlimited who offers integrated programs focused on learning, mentoring, and networking to support senior (The FEW), mid-level (LEAD), and emerging talent (IMpower). When I worked in-house, I sent high potential women to their programs, and since starting my own company have had the opportunity to facilitate their LEAD program.
