Hogan As A Leadership Framework Development Program: Understanding the Environment You Create & Knowing How to Flex to Engage Others in Meaningful Ways

We believe in the ideas of high-potential mid-career under-represented talent and the value they bring to business. We would like to support their advancement by providing this development opportunity at no cost to the company or participants thanks to our sponsors.

Three years ago, we introduced a development program called ***Hogan As a Leadership Framework*** created in partnership with Hogan to help leaders understand themselves and others along key dimensions tied to culture and motivation, everyday leadership, and tendencies under stress. Participants build new skills by working through a case study, hearing real-life examples, and sharing best practices. They then reflect and create a plan to turn insights into action.

Sponsors:

We are excited to announce that we are adding executive coaching to the program for the first time this year. Participants conclude the program by reflecting and creating commitments to turn insights into action.

We are pleased to welcome back [Dr. Lisa Brooks-Greaux](#) as the keynote speaker, [Paula Zimmerman](#) as the co-facilitator and coach, and [Shea Clarke](#) as Program Manager. For program details click [here](#).

If interested in nominating a talented leader from your organization to attend, please contact Shea Clarke at shea@princetonhrinsight.com
